

Justification for removing a substance from CoRAP prior to evaluation

Substance Name (public name):

2-ethylhexyl 10-ethyl-4-[[2-[(2-ethylhexyl)oxy]-2-oxoethyl]thio]-4-octyl-7-oxo-8-oxa-3,5-dithia-4-stannatetradecanoate

Authority: Netherlands

EC Number: 248-227-6

CAS Number: 27107-89-7

Date: 21 March 2023

The priority for evaluating the substance has been reconsidered based on:

<input type="checkbox"/>	The initial hazard ground of concern has been verified and considered of low priority
<ul style="list-style-type: none">• <i>Indicate the initial hazard ground of concern (e.g. suspected CMR, ED, PBT, as presented in chapter 5.3 of the CoRAP justification document)</i>• <i>Provide the reasons for reconsidering their relevance.</i>	

<input type="checkbox"/>	The initial exposure/risk ground of concern has been verified and considered of low priority
<ul style="list-style-type: none">• <i>Indicate the initial exposure/risk ground of concern (e.g. wide dispersive use, consumer use, high RCR, as presented in chapter 5.3 of the CoRAP justification document)</i>• <i>Provide the reasons for reconsidering their relevance.</i>	

☒	The generation of information under Substance Evaluation is considered of low priority because
	<input type="checkbox"/> Already ongoing or implemented regulatory risk management process(es) <i>Specify which process(es) and explain, e.g. compliance check, substance evaluation for a larger group, restriction, SVHC identification, others</i>
	<input type="checkbox"/> Registrants' (voluntary) action addresses concern <i>Specify</i>
	<input checked="" type="checkbox"/> Other: <i>Specify</i> <u>Rationale for withdrawal:</u> <p>The substance was included in CoRAP for initial concerns related to potential ED properties.</p> <p>A compliance check (CCH) process for this substance is on-going. ECHA sent a decision requesting information related to the initial concerns, including a EOGRT study (OECD TG 443). The registrant failed to update the dossier with the requested information at the deadline set in the CCH Decision; this case is currently under enforcement. The timeline for submission of the requested information is uncertain but it will likely take several years. Consequently, NL CA withdraws the substance from the CoRAP list. If the concerns will not be sufficiently addressed by the outcome of the CCH(s), the Substance Evaluation route will be pursued by re-introduction of the substance on the CoRAP list.</p>
