### **On minor changes of the national authorisation of the biocidal product Biopren ant gel**

Latvian Environment, Geology and Meteorology Centre (LEGMC) on 14 February 2022 received the application for minor changes via Register for Biocidal Products (Case No. BC-CK073724-37) submitted according Article 7 of *Commission Implementing Regulation (EU) No 354/2013 of 18 April 2013 on changes of biocidal products authorised in accordance with Regulation (EU) No 528/2012 of the European Parliament and of the Council* for the biocidal product **Biopren ant gel** with authorisation number **LV/2021/MR/019**.

LEGMC evaluated the application and agrees with proposed changes:

- 1) Change in the pack size range:
  - For non-professional users: LDPE plastic syringes of 1, 2, 3, 4, 5, 8, 10, **15, 20, 25, 30, 35, 40, 45** grams of gel bait.
  - For professional and trained professional users: LDPE plastic syringes of 1, 2, 3, 4, 5, 8, 10, **15, 20, 25, 30, 35, 40, 45, 50, 55 and 60** grams of gel bait.
- 2) Addition, replacement or modification of a measuring or administration device: addition of **plastic bait station capsule**.

This letter is integral part of authorisation of biocidal product through mutual recognition (28<sup>th</sup> of October 2021, letter No.4-6/1538).

LEGMC would like to ask **Bábolna Bioenvironmental Centre Ltd.** to notify the above mentioned information down to supply chain.
