

Summary of product characteristics for a biocidal product

Product name: Maxforce White IC

Product type(s): PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Authorisation number: 1070-11

R4BP 3 asset reference number: DK-0011082-0000

Table Of Contents

6. Other information	6

Administrative information

1.1. Trade names of the product

Maxforce White IC

1.2. Authorisation holder

Name and address of the authorisation holder	Name	2022 ENVIRONMENTAL SCIENCE FR SAS
	Address	3, place Giovanni Da Verrazzano 69009 LYON France
Authorisation number	1070-11	
R4BP 3 asset reference number	DK-0011082-0000	
Date of the authorisation	30/01/2019	
Expiry date of the authorisation	29/01/2024	

1.3. Manufacturer(s) of the biocidal products

Name of the manufacturer	Bayer S.A.S/ Environmental Science
Address of the manufacturer	16 rue Jean-Marie Leclair – CS 90106, 69266 Lyon Cedex 09 France
Location of manufacturing sites	ZI Nord 02250 Marle sur Serre France

1.4. Manufacturer(s) of the active substance(s)

Active substance	37 - imidacloprid
Name of the manufacturer	Bayer AG
Address of the manufacturer	Industrial Operations, Alfred Nobel-Strasse D-40789 Monheim am Rhein Germany
Location of manufacturing sites	Chempark D-41538 Dormagen Germany

2. Product composition and formulation

2.1. Qualitative and quantitative information on the composition of the biocidal product

Common name	IUPAC name	Function	CAS number	EC number	Content (%)
imidacloprid	(2E)-1-[(6-chloropyridin-3-yl) methyl]-N-nitroimidazolidin-2-imine	Active Substance	138261-41-3	428-040-8	2,15

2.2. Type of formulation

RB - Bait (ready for use)

3. Hazard and precautionary statements

Hazard statements	<p>Very toxic to aquatic life with long lasting effects.</p> <p>Contains BIT. May produce an allergic reaction.</p>
Precautionary statements	<p>Avoid release to the environment.</p> <p>Collect spillage.</p> <p>Dispose of container to household recycling centre.</p>

4. Authorised use(s)

4.1 Use description

Use 1 - Professional

Product type

PT18 - Insecticides, acaricides and products to control other arthropods (Pest control)

Where relevant, an exact description of the authorised use

VII.2 Insecticide

Target organism(s) (including development stage)

Scientific name: *Blattella germanica*
Common name: German cockroach
Development stage: Adults and nymphs

Scientific name: *Blatta orientalis*
Common name: Oriental cockroach
Development stage: Adults and nymphs

Scientific name: Blattidae:
Common name: Common cockroach
Development stage: Adults and nymphs

Scientific name: *Periplaneta americana*
Common name: American Cockroach
Development stage: Adults and nymphs

Scientific name: *Supella longipalpa*
Common name: Brown-banded cockroach
Development stage: Adults and nymphs

Field(s) of use

Indoor

IV.1. Indoors

IV.1.3 To be used in:

IV.1.3.1 Industrial/commercial premises

IV.1.3.2 households/private areas.

IV.1.3.3 Public (e.g. Hospitals, Nursing Homes)

Application method(s)

Method: Bait application

Detailed description:

Bait application

Application rate(s) and frequencies

Application Rate: 1-3 spots x 0.1g

Dilution (%):

Number and timing of application:

Apply Maxforce White IC as spots or thin ribbons to surfaces in identified target areas, it can be placed in corners, cracks and crevices and voids.

The application rate is adjusted to the size of the infestation

One spot = 0.1g (approx. 7mm diameter)

A thin ribbon equating to 1 spot can alternatively be applied.

Cockroach Species Application rate for given density of infestation *
per m²
Low High

Small e.g. German cockroach	One spot x 0.1g	Two spots x 0.1g
Large e.g. Oriental Cockroach American Cockroach	Two spots x 0.1g	Three spots x 0.1g

* Maximum application rate of 3 x 0.1 g spots per square metre, with a maximum repeat application of 3 – 11 times per year per building.
maximum rates of :
• 60 x 0.1 g spots (i.e. 6 g of bait) from one 30 g syringe in a domestic dwelling ;
• 270 x 0.1 g spots (i.e. 27.9 g of bait) from one 30 g syringe in a larger building should not be exceeded.
Should higher amounts of bait be required, then a bait station should be used indoors.

Category(ies) of users

Professional

Pack sizes and packaging material

Plastic cartridge (PP cartridge with PE tip and plug) 20 – 30g

4.1.1 Use-specific instructions for use

The product is dispensed using a suitable gel applicator. When the treatment has been completed remove the empty cartridge and dispose of safely. If the cartridge is only partially used, remove it from the applicator, seal it with the end cap provided and store as directed.

4.1.2 Use-specific risk mitigation measures

FOR USE ONLY AS AN INSECTICIDE
FOR USE ONLY BY PROFESSIONAL OPERATORS
Do not apply directly to surfaces on which food or feed is stored, prepared or eaten
Use only in positions inaccessible to children and animals
Prevent access to bait by children and animals
Wash hands and exposed skin before meals and after use.
This material and its container must be disposed of in a safe way.
For indoor use only

Hazardous to bees

Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains.
Always read the label or leaflet before use and follow all the instructions provided.
Do not apply to areas susceptible to routine wet cleaning.
If removing any residual hardened bait by sponging or wet cloth, all bait and used materials (sponge, cloth etc) must be disposed of safely as domestic waste.
Do not use the product in areas where resistance to the active substance (s) is suspected or established.
In case of re-infestation, reapply the product without exceeding the maximum number of treatments authorised per year.
Inform the registration holder if the treatment is ineffective.
Before treatment, remove all other sources of food for cockroaches (waste, food scraps ...) from the infested area to encourage the ingestion of the gel.
Do not apply the product on absorbent surfaces.
Do not expose bait drops to sunlight or heat (i.e radiator)
Avoid continuous use of the product.
Alternate products containing active substances with a different mode of action.
Use only in concealed areas difficult to access and kept away from water, such as cracks and crevices
Adopt integrated pest management methods such as the combination of chemical, physical control methods and other public health measures, taking into account local specificities (climatic conditions, target species, conditions of use, etc).

4.1.3 Where specific to the use, the particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

General

Move out of dangerous area. Place and transport victim in stable position (lying sideways). Remove contaminated clothing immediately and dispose of safely.

Ingestion:

Wash out mouth with water. Contact poison treatment specialist. Seek medical advice immediately if symptoms occur and/or large quantities have been ingested. In case of impaired consciousness place in recovery position and seek medical advice immediately. Do not give fluids or induce vomiting.

Keep the container or label available. If necessary take the person to hospital and show the labelling or packaging. Do not leave poisoned person alone.

Skin contact:

Remove contaminated clothing and shoes. Wash contaminated skin with soap and water. Contact poison treatment specialist if symptoms occur. Seek medical attention if irritation develops and persists.

Eye contact:

Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Do not forget to remove any contact lenses.

4.1.4 Where specific to the use, the instructions for safe disposal of the product and its packaging

Do not discharge unused product on the ground, into water courses, into pipes (sink, toilets...) nor down the drains
P501: Dispose of contents/container in accordance with local/region/national/international regulation (to be specified)

4.1.5 Where specific to the use, the conditions of storage and shelf-life of the product under normal conditions of storage

Store in original container
Keep in a cool, dry, well ventilated area
Protect from frost
Store away from light.
Shelf life of up to 24 months.

5. General directions for use

5.1. Instructions for use

See 4.1.1

5.2. Risk mitigation measures

See 4.1.2

5.3. Particulars of likely direct or indirect effects, first aid instructions and emergency measures to protect the environment

See 4.1.3

5.4. Instructions for safe disposal of the product and its packaging

See 4.1.4

5.5. Conditions of storage and shelf-life of the product under normal conditions of storage

See 4.1.5

6. Other information

I. Etiketten skal udformes i overensstemmelse med det godkendte resumé af det biocidholdige produkts egenskaber, jf. artikel 69, stk. 1, i biocidforordningen (Forordning (EU) nr. 528/2012), og CLP-Forordningen [1].

II. Det er udelukkende ansøgers/godkendelsesindehaverens ansvar, at etiket, mærkning og pakning lever op til lovens krav, jf. biocidforordningen artikel 69. Etiket og mærkning skal være på dansk.

Nedenstående tekst i afsnit III er bidrag til overholdelsen af reglerne og således kun en del af de krav, som stilles til blandt andet etiketten.

III. Etiketten skal indeholde nedenstående oplysninger. Oplysninger i citationstegn skal angives ordret:

1) I hovedfeltet:

"Insektmiddel

Må kun anvendes erhvervsmæssigt som insektmiddel til bekæmpelse af tysk og orientalsk kakerlak (*B. germanica* og *B. orientalis*).
Må kun anvendes indendørs i revner og sprækker."

2) I advarselsfeltet:

"ADVARSEL

Meget giftig med langvarige virkninger for vandlevende organismer.

Undgå udledning til miljøet.

Udslip opsamles.

Farligt for bier.

Vask huden grundigt efter brug.

Overtrædelse af nedenstående særligt fremhævede forskrifter kan medføre straf:

Må kun anvendes erhvervsmæssigt som insektmiddel til bekæmpelse af tysk og orientalsk kakerlak (*B. germanica* og *B. orientalis*). Må kun anvendes indendørs i revner og sprækker.

Må ikke anvendes mod andre skadevoldere og ikke i højere doseringer end de i brugsanvisningen nævnte.

På grund af en risiko for forgiftning ved indtagelse, må produktet ikke anvendes i områder hvor børn, husdyr samt vilde dyr kan få adgang.

Må ikke anvendes på arealer og overflader, der rengøres ved brug af vand.

Må ikke tømmes i kloak afløb.

Opbevares utilgængeligt for børn.

Må ikke opbevares sammen med fødevarer, drikkevarer og foderstoffer.

Levnedsmidler og foderstoffer må ikke forurennes.

Hylder, borde og andre flader, hvor levnedsmidler skal ligge eller opbevares, må ikke behandles og skal efter arbejdet omhyggeligt renses for eventuelle stænk og spild."

Farepiktogrammet GHS09

Evt. oplysninger om førstehjælp.

3) I deklaraionsfeltet:

a) Teksten "Insektmiddel BPR-reg. nr. 1070-11. Aktivstof imidacloprid og biocidholdigt produkt er godkendt efter biocidforordningen (Forordning (EU) nr. 528/2012)".

b) Oplysning om præparattype: "Gel" for dette præparat.

c) Indholdet af aktivstof i vægtprocent (% w/w) og g/L ved 20 °C.

d) Sætningen: "Indeholder 1,2-benzisothiazolin-3-one (BIT). Kan udløse allergisk reaktion."

e) Udløbsdatoen skal anføres. Denne dato må højst være 2 år efter produktionsdatoen. Etikettens dato kan udformes som en henvisning til en produktionsdato andetsteds på emballagen.

f) Batchnummer eller – betegnelse skal anføres.

g) Pakningsstørrelse i kg.

h) Godkendelsesindehavers navn og adresse.

4) Brugsanvisningen:

Oplysninger om skadevoldere, anvendelsesområde og doseringer.

Følgende retningslinjer gælder i forhold til bortskaffelse.

Der skal mærkes med sikkerhedssætning P501: "Indholdet/holderen bortskaffes i overensstemmelse med kommunale regler for affaldshåndtering."

Derudover skal mærkningen ske efter retningslinjerne: "Rester skal afleveres til den kommunale affaldsordning for farligt affald."

Tomme beholdere kan bortskaffes med dagrenovationen."

"Ved bortskaffelse af resterende hærdet lokkemiddel, med svamp eller våd klud, skal både lokkemiddel og materiale (klud, svamp osv.) bortskaffes på en sikker måde som husholdningsaffald."
