EN

Definition
Agency established by Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 to manage all REACH and CLP tasks by carrying out or co-ordinating the necessary activities, to ensure a consistent implementation at Community level, and to provide Member States and the European institutions with the best possible scientific advice on questions related to the safety and the socio-economic aspects of the use of chemicals. This is achieved by ensuring a credible decision-making process, using the best possible scientific, technical and regulatory capabilities and by working independently in an efficient, transparent and consistent manner.
